Our new Headteacher will have the drive, vision and stamina combined with the management skills to lead their staff team to:

- ensure that every student, at every level, achieves their full potential and makes excellent progress
- make sure that the school is judged at least "good" at its next inspection
- take advantage of external changes in the educational landscape locally and more widely; and
- have the vision and integrity to lead the school in short and longer term development.

The Headteacher and her/his staff team will be able to rely upon the support of the Board of Governors and their wide range of educational, management and professional skills in achieving these objectives.
