

Raine's Foundation School Math's Scholarship Programme 2019-20

Achieving Excellence by Unlocking Potential

Raine's Foundation Math's Scholarship Programme offers pupils the opportunity to engage in a personalized programme. This will be for the duration of a scholar's time at the school and subject to excellent progress and commitment to their scholarship programme.

We will be offering eight Mathematics scholarship places to prospective students in March 2019.

We envisage that each student will be granted a personalised programme to the value of £1,000.

The Scholarship Programme will offer students the opportunity to experience 1-1 specialist mentoring, specialist academic tuition, residential trips, support from The Brilliant Club, accreditation and certification in additional qualifications.

"These valuable scholarships are designed to recognize the talent and ability our students possess and provide opportunities for them to develop these abilities through their time at Raine's Foundation School."

Rob Hullett. Head Teacher

RAINE'S FOUNDATION
SCHOLARSHIP PROGRAMME
